## Pharmananda Privileges

**Network :** Main provider of all Turkish exporters, most widespread supply network in Turkey, Middle East, Africa and Asia.

**Pharmananda Express :** 12 hours response time, daily to monthly shipments on demand. Excellent logistics solutions and support available.

**Trust :** Part of one of the biggest conglomerates - Şekerlisoy Holding - which operates in five different sectors.

## Our Warehouses

Thanks to our wide ranged medical devices portfolio, you can find all your medical requirements from medical diabetes devices to blood pressure monitors.

- Daily 30.000 packaging and 940.000 shipment capacity.
- Our customized ERP Modules (Enterprise Resource Planning).
- Customer oriented packing and operational procedures.

# A Good Distribution Practise

Impactful companies depend on extreme transparency, robust connection and the power to trust their team to get the job done. Thus, we value every single shipment that goes from our pharmaceutical warehouse as another brick in the trust bond with our clients that we build with operational excellence. Maintaining every medication appropriate temperature span during winter, spring, summer and fall is our definition of success aside with timely delivery.

Good Distribution Practice (GDP) and Good Storage Practice (GSP) oriented supply chain management.

End to end temperature mapping through data loggers.

Validation Certificates for Cold Storing Chain Boxes.

SGS Surveyor Reports during the shipments.

# Quality Assurance

The value of successfully addressing supply chain challenges is not only for assuring a quality, but also has a significant role on human health because of our sensitive product line. By this fact, resilience and agility have never been more important. We built a resilient supply chain that works perfect any time, even in turbulent times.

As Pharmananda team, we plan and execute continuously, innovate and scale faster, gain total visibility and trust while building sustainable processes.

Good Distribution Practice

Good Storage Practice

\*Exclusive brands are developed and produced by Pharmananda Ar&Ge team. As Pharmananda team, we plan and execute continuously, innovate and scale faster, gain total visibility and trust while building sustainable processes.

# Medical Devices

## 01. Imaging Systems

Radiography Devices, Magnetic Resonance Imaging (MR), Nuclear Medicine, Tomography (CT), Ultrasound, Echocardiology

## 02. Operating Room and Ventilator Devices

Defibrillator, Electrosurgery (Electrocautery) Device, Suction Apparatus, Anesthesia Machines, Breathing Devices (Ventilators)

## 03. Medical Gas Systems

## 04. Biochemistry, Molecular Biology, Hematology, Genetics and Microbiology Devices

Autoanalyzer, Blood Analysis Devices, Centrifugal Devices, Blood and Blood Components Storage Devices, Apheresis Devices, Automatic Sequence Devices, Polymerase Chain Reaction (PCR) Devices, Cell Separators, Flow Cytometry Devices

## 05. Biological Signal Monitoring Devices 09. Audio and Hearing Aids

ECG Devices, Bedside Monitors, Oximeter, EMG, ERG, Defibrillator/Monitors

## 06. Radiotherapy Systems

Linear Accelerator, Co-60 Teletherapy Devices, Brachytherapy (Intracavitary), Simulators and Systems (214)

## 07. Sterilizer and Medical Oven Devices

Steam Sterilizer (Autoclave), Dry Air Sterilizer (Oven), Gas (EO, Hydrogen Peroxide, formaldehyde) Sterilizers

## 08. Dental, ENT and Eye Units

## 10. Optical Medical Devices

Endoscopes (Gastroscope, Colonoscope, etc.), Telescopes, Microscopes (Electron, Laboratory, Surgery, Inspection), Light Sources, Otolaryngoscope and Ophthalmoscopes, Laser Devices

## 11. Mechanical Devices and Surgical Instruments

## 12. Physical Therapy Devices

Running and Treadmills, Exercise Bikes, Traction Devices, Isokinetic Test Systems, Bath (Water, Paraffin) Devices, Tens Devices, Short Wave Therapy Devices

# Medical Devices

## Monitors & Imaging Systems

In addition to supplying brand new MRI scanners, we address the complex financial challenges faced by the healthcare systems today by enabling you to acquire refurbished MRI scanners without hesitation. We are always here to support you with our associated company that can provide full project management and maintenance once your MRI scanner is installed. If needed, they are also able to uninstall your old system and make the process as soon as possible for you.

## Medical Supplies & Equipment

Syringes, Pen Needles, Tuberculin & Insulin Needles, Catheters, Infusion

### 03. **Sample Collection**

Vacuum Tubes, Blood Sampling, Specimen Container

### 04. **Disinfectants**

Hand sanitizers, device disinfectants, surface cleaners

### 05. **Diagnostics**

Testing kits, PCR tests, diagnostic devices

### 06. **Hospital Equipment & Furniture**

Imaging Machines, Hospital Beds, Stretchers, Wheel Chairs

### 07. **Orthopedic Supports**

Elbow Pads, Angle Supports, Storage Racks, Folding Walkers, Neck Collars

## Medical Supplies & Equipment

## Diagnostic Lab Tests&Devices

Medical testing kits are a common tool in several disciplines to allow healthcare professionals to test for genetic, autoimmune, or other diseases.

- HIV tests
- Hepatitis tests
- Covid-19 tests
- Infectious Disease tests
- STD tests
- Cardiac Marker tests
- Tumor Marker tests
- Fertility Tests
- OTC tests (pregnancy)
- ECG Electrodes
- Rapid Test Reader

Our tests are registered in Europe Medical Device System, Saudi FDA, Iran MoH, ANVISA-Brazil, Ekvator - Ministerio de Salud Pública

## Diagnostic Rapid Tests

Implementing rapid screening for diseases has huge time and cost savings when compared to laboratory screening, and will help to control the spread of the virus by identifying infection rapidly and accurately. The test cassette is easy to use, needing only a finger-prick sample to function, much like a blood glucose test.

Covid-19 Tests

Pregnancy Tests

Malaria Tests

Chlamydia Tests

Typhoid Test

## Hospital Furniture

Turkey, notably known for hospital furniture, has been a dependable exporter of hospital beds within recent years. At Pharmananda, we work directly with specialists in the design, manufacturing and sale of high technology products for hospitals, clinics and geriatric residences, namely hospital beds, maternity beds, ergonomic and gynecological chairs, treatment tables and emergency stretchers, to name but a few.

## Logistics Assistance

As a function of our logistics assistance, we provide you recommendations on the most proper shipping option for a good quality-to-price ratio. From loading to delivery, each stage is designed and supervised by our team and you know precisely the location and status of your order. We attend to ex-factory loading to administer final audit of seal. We guarantee accurate delivery of our client's goods and supervise the generation of customs clearance documents.
